

Jordan Marble Company Quality Policy (Al-Zammar)

“Jordan Marble Co. is committed to fulfil its customers’ requirements and needs by using the most modern ways in producing its products from Building Stone, Marble and Granite, working to continuously improve these products in order to ensure supplying the customers with high quality products.

The management of the company is also committed to apply an effective quality assurance system, that fulfils the requirements of the European Construction Products Directive (89/106/EEC), and to improve the technical and managerial skills of the company’s employees, in order to provide the company with the qualified and trained cadre.

It is also committed to inform the employees of the company’s quality policy and system, and to provide the necessary materials for the company’s continuous performance of its required duties in the right form.

The employees are also committed to apply this quality system and policy, and to follow the included procedures in the Quality Assurance System and that exists in the quality manual of the company.”

We, Jordan Marble Company, manufacture all types of Marble.
